#### POLICY JUSTIFICATION

##### Korea-AGM-114R Hellfire Missiles

The Republic of Korea (ROK) has requested to buy two hundred eighty-eight (288) AGM-114R Hellfire missiles. Also included are AGM-114R spare parts; U.S. Government and contractor engineering, technical, and logistics support services; repair and return; storage; and other related elements of logistical and program support. The estimated total cost is \$36 million.

This proposed sale will support the foreign policy and national security objectives of the United States by meeting the legitimate security and defense needs of one of the closest allies in the INDOPACOM Theater. The ROK is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to U.S. national interests to assist the ROK in developing and maintaining a strong and ready self-defense capability.

The ROK intends to use these Hellfire missiles to supplement its existing missile capability and current weapon inventory for its AH-64E aircraft. The proposed sale will improve the ROK's capability to meet current and future threats and ensure interoperability with other AGM-114R Hellfire missile users in the region. The Republic of Korea will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Orlando, FL. The purchaser typically requests offsets. Any offset agreements will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

#### TRANSMITTAL NO. 21-31

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

##### Annex Item No. vii

(vii) Sensitivity of Technology:

1. The AGM-114R is used against heavy and light armored targets, thin skinned vehicles, urban structures, bunkers, caves and personnel. The missile is Inertial Measurement Unit (IMU) based, with a variable delay fuse, improved safety and reliability.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific

hardware or software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Republic of Korea can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Korea.

## STOP ILLEGAL TRAFFICKING IN FIREARMS ACT

Ms. COLLINS. Mr. President, earlier this week, I joined Senator LEAHY in introducing the Stop Illegal Trafficking in Firearms Act. Our bill would strengthen Federal law by making it easier for prosecutors to go after gun traffickers and straw purchasers, those individuals without criminal records who buy firearms for other people so they can bypass the Federal background checks law. Our bill would also fully protect the rights of the vast majority of gun owners who are law-abiding citizens.

Straw purchasing is intended to achieve one result: to put a gun in the hands of a criminal who cannot legally obtain one. Today, traffickers, in particular, exploit weaknesses in Federal law by targeting people who can lawfully purchase guns. Then, those traffickers use those guns to commit crimes or sell them to other criminals. They often ship them across State lines, straight up I-95's "Iron Pipeline" and other interstate highways. They frequently connect with criminal gangs that are ready to sell or trade those guns for prescription opioids, heroin, and fentanyl, and commit other crimes.

Yet right now, a straw purchaser can be prosecuted only for lying on a Federal form, a paperwork violation. Our bill would create new criminal offenses for straw purchasing, which would help law enforcement officials take down these criminal enterprises.
